

## PEGULIAR PROPERTIES OF NEW MEDICINE

### Cooper Preparation Attracts Widespread Attention by Expelling Internal Parasites.

The interest created in leading cities during the past year by young Mr. Cooper with his new preparation, is largely accounted for by a peculiar quality possessed by this medicine, which he calls his New Discovery.

Mr. Cooper believes that internal parasites, or tapeworms, are responsible for much ill health, and it is an undoubted fact that his medicine has expelled immense numbers of these creatures in various cities visited by him. The young man also believes that stomach trouble is the main cause of all ill health. He claims that few can have poor health with a good digestion. He further claims that his New Discovery medicine does nothing but tone up the stomach, yet it not only expels the parasites, but relieves many other ailments not as a rule associated with stomach trouble.

Little Jessie Birdsall, daughter of Mrs. Ida Birdsall, living at 2138 Carroll avenue, Chicago, is among many relieved of a large parasite by Mr. Cooper's preparation during his stay in that city. In speaking of the matter to Mr. Cooper, the mother said: "My child Jessie, who is 14 years old, has been suffering with this trouble for over seven years. Until this morning we did not

known what the trouble was. She was extremely nervous; the least little thing would upset her; tongue was coated, and at times she would have a good appetite, then again could not bear the sight of food; she was restless at night, had a bad breath, especially when she got up of mornings. We tried everything to relieve her, but met with no success. We were just on the point of giving up trying anything else, when we began to read of Cooper's New Discovery. Several days ago we purchased this medicine. Jessie has been using it regularly, and this morning this parasite left her system. I don't wonder that she had always felt bad and nothing we would give her seemed to relieve her. Now that she is relieved of this tapeworm I feel sure that she will grow better each day, and enjoy perfect health. Mr. Cooper, your medicine is worth a thousand times more than you charge for it. I know of a number of people troubled the same way as Jessie has been, and I certainly expect to tell them personally to try your medicine."

We would advise anyone who has been troubled for some time with general poor health to try this great medicine. We are agent for it in this city, Charles Rogers & Son.

### NATIONAL RIFLE MATCHES.

WASHINGTON, D. C. Feb. 10. — As the next national rifle matches will be shot at Camp Perry, Ohio, and it is more than probable that Lt. Col. R. K. Evans, now of the General Staff, will be again executive officer of the matches, considerable curiosity has been manifested by rifleman as to his report on the matches of 1907. This report, accompanied by reports from almost all of the team captains present at the last matches, has passed through the regular channels and while the report in full will not be made public certain extracts are available. The size and importance of the national matches from the war department's standpoint is shown by the fact that, as Col. Evans reports 75 officers of the regular army were detained to assist the executive officers as assistant statistical or range officers, in addition to the large number of officers of the National Guard who volunteered for that duty. In addition there was from the regular establishment the 3d battalion of the 4th infantry, and the 2nd battalion of the 7th infantry, with a total of eighteen officers and 375 men; and a field hospital with 57 men. There were also 14 officers and 287 men detailed from the Ohio National Guard. All of these officers and men were in addition to the rifleman present, of whom there were approximately a thousand. Col. Evans reports there were not enough officers and men to handle the match and recommends the following detail for the next match: 3 battalions of infantry of not less than 260 men each; one troop of cavalry of not less than 65 men; one signal corps company of 3 officers and 100 men, and one field hospital of not less than 2 officers and 60 men.

Col. Evans thinks the range will be satisfactory even in bad weather with tiling and other artificial drainage, macadamized roads and concrete walks, etc. In discussing the firing points he says, "Intervals between the groups at 200, 600 and 800 yards were not sufficient to permit the simultaneous use of the ranges, and the firing points at 1000 yards overlapped those at 600 yards so that about ten targets could not be used while firing either together or at the shorter range." This condition is to be remedied by additional construction. Col. Evans was pleased with the targets used, especially with the skirmish targets which consisted of indurated straw board cut to the size of the kneeling and prone figures and mounted on the B frame. The system of having a buzzer at each target should hereafter be considered indispensable. "The great and general improvement in marksmanship throughout the Union during the past year," he says, "as

shown by this table is a satisfaction to all who are interested in rifle practice. This shows advance in good shooting as the result of the work of the National Rifle Association and of the influence of the National Match." The table shows a gain in points by the various teams over their scores of 1906 as follows: Navy, 290; Mass, 242; Ohio 364; Cavalry 175; Wash. 337; Penn. 372; Infantry 88; New York 164; New Jersey 284; Minnesota 225; Illinois 204; Wis. 186; Marine Corps 71; District of Columbia 386; Mich. 262; Oregon 310; Maryland 350; Georgia 370; Iowa 218; Conn. 193; Colo. 237; Cal. 316; Montana 273; Fla. 96; Kans. 294; Indiana 336; Texas 328; Missouri 563; Okla. 810; West Va. 539; New Mex. 464; Miss. 835; S. C. 118; Ala. 649; Tenn. 167; Louisiana 142; and Virginia 398. Nebraska and Vermont were the only two states making less points, the former losing 47 and the latter 76.

Col. Evans gives a resume of the recommendations of the team captains together with some of his own. It is recommended that as many officers as possible who fill important positions in each national match be re-detailed for the succeeding match and that the detail of the executive officers and his staff be made as early as practicable. He suggests a board of officers to formulate rules for the work of the statistical office and to work out changes in blanks and score cards which experience has found advisable. He recommends that all officers be ordered to report at such time as will allow chief range officers at least three days for their thorough instruction and training. He terms the practice of firing pieces to foul them a nuisance, that it is dangerous and does no good. The theory that such firing materially affects scores on the range is believed by him to be a superstition more than a demonstrated fact. He therefore recommends that the practice be forbidden under penalty of disbarment from the match. He also recommends that the practice of pointing fire-arms from behind the firing line be forbidden under the same penalty, as there were two accidental discharges of supposedly "unloaded" weapons during the last match and it was only a matter of good luck that some one was not killed or wounded during this senseless and dangerous practice.

He recommends that preliminary practice take place on Friday and Saturday before the National Match which should begin on Monday. This recommendation has been adopted by the board. "The incident most generally commented upon in this match," he says, "was the phenomenal record made by the Naval Academy team. Not only did it win 6th place in the Team Match, but one of its members, Midshipman W. A. Lee, was the winner of the National Individual and also of the National Pistol Match. Many competitors and spectators commented with surprise on the fact that although opportunity was given in orders, yet the U. S. Military Academy was not represented in the National Match. In

these comments attention was frequently invited to the fact that rifle practice is more especially the business of the army than of the navy, and that while the Military Academy has time and enthusiasm for football, baseball, polo and tennis, it is absent from the National Rifle Match at which the Naval Academy wins conspicuous honors."

Col. Evans highly compliments Maj. L. M. Brett, in charge of the Statistical office; Maj. James B. Dickman, chief range officer and Capt. Guy H. B. Smith, chief pit officer, and speaks in the highest terms of the assistance rendered by the officers of the National Guard of Ohio, including Gen. A. B. Critchfield and Col. Edward T. Miller, who acted as Post Quartermaster.

### \* TAFT AS KANSAS CITY.

KANSAS CITY, Feb. 10.—Secretary Taft was given a memorable ovation by 15,000 people in the convention hall tonight where he was the guest of honor and principal speaker at the most elaborate banquet ever attempt in this city. There were 1200 banqueters, many of whom came from Nebraska, Kansas, Oklahoma and distant Missouri cities. The demonstration accorded Taft as he arose to speak has never been surpassed by any welcome given any public man in the history of the city.

The balconies of the hall were thrown open to the public and long before the hour of speaking began, standing room was at a premium. Secretary Taft's speech was a general defense of the Republican party and especially policies of the Roosevelt administration. Regarding the recent panic, the speaker said the President's special message completely answers the statement that the administration is responsible for the present depression. Taft says we were passing into a regime of irresponsible plutocracy and that during the past four years the people have awakened to the danger and there now was a popular demand that all lawbreakers, no matter how wealthy or high or powerful, shall be made to suffer. Under Roosevelt's leadership, he said, the Republican party has not faltered in its determination to rise to the occasion.

### The Jumping Off Place.

"Consumption had me in its grasp; and I had almost reached the jumping off place when I was advised to try Dr. King's New Discovery; and I want to say right now, it saved my life. Improvement began with the first bottle, and after taking one dozen bottles I was a well and happy man again," says George Moore, of Grimesland, N. C. As a remedy for coughs and colds and healer of weak, sore lungs and for preventing pneumonia New Discovery is supreme. 50c and \$1.00 at Charles Rogers & Son, druggists. Trial bottle free.

### AT THE STAR THEATRE.

The management of this popular place of amusement was grievously disappointed to learn, on Sunday night, that the stock company which had been secured for this week, had failed to make connection. Not to disappoint their audiences Messrs. Fritz & Hutchings wired to Portland to secured talent and succeeded in presenting a good entertainment last night.

The first on the program is "The Concertina King" who manipulates this pretty instrument in a manner that wins two boisterous encores.

Dick Hutchins sings "My Wild Irish Rose" in his own inimitable style.

Miss Lois Cecce Hobson sings beautifully, and last night responded to three encores. Her last song "So Long Mary" is very catchy.

The moving pictures are fine, "The Four Footed Hero" closing to an outburst on the part of the audience when the "hero" and little girl, whose life he had saved were shown on the screen. The closing pictures "Christmas" is also a ne subject which catches the audience.

### Something Wrong.

The little girl had got up very early in the morning for the first time.

"Oh, mamma," she exclaimed, returning from the window, "the sun's comin' out all right, but God's forgotten to turn off the moon."—Bohemian.

### Suffering and Dollars Saved.

E. S. Loper, of Marilla, N. Y., says: "I am a carpenter and have had many severe cuts healed by Bucklen's Arnica Salve. It has saved me suffering and dollars. It is by far the best healing salve I have ever found." Heals burns, sores, ulcers, fever sores, eczema and piles. 25c at Chas. Rogers & Son, druggists.

## A VALUABLE HOME RECIPE

### WILL BREAK UP A COLD IN TWENTY-FOUR HOURS OR ANY COUGH THAT IS CURABLE.

Mix one-half ounce of Concentrated oil of pine with two ounces of glycerine and a half pint of good whiskey. Shake thoroughly each time and use in doses of a teaspoonful to a tablespoonful every four hours.

The renowned throat and lung specialist who established a camp for consumptives in the pine woods of Maine, and whose remarkable cures there attracted international attention, declares that the above formula is one of the very best remedies obtainable for an acute cold and that it will strengthen the lungs, relieve coughs and heal the bronchial tubes. Also, that it will cure any case of lung trouble not too far advanced if the patient will assist by plenty of outdoor exercise, inhaling deep, long breaths every few minutes.

The ingredients are procurable of any good prescription druggist and easily mixed at home and should take its place as one of the most valued remedies in the family medicine chest.

Inquiry at one of the leading druggists elicited the information that Concentrated oil of pine is put up for dispensing only in half-ounce vials securely sealed in tin screw-top cases intended to protect it from heat and light. The oils sold in bulk and the patent medicines put up and labeled "Oil of Pine," are to be avoided because owing to their impurities they produce nausea and are useless as a medicine, besides they sometimes leave permanent kidney trouble.

### ANOTHER SKELETON FOUND.

OAKLAND, Feb. 10.—The skeleton dug up at Elmhurst last Saturday, leads the coroner's office to believe they are on the track of a big murder mystery. The bones found today were in the same state of preservation as the others. They were located in the same hole about two feet deeper. The bones found Saturday have been examined by surgeons at the request of the coroner's office and pronounced human bones and not enough decomposed to bear out the theory that they were those of some ancient Indian as was at first supposed.

### HOGS HURRIED TO MARKET.

CHICAGO, Feb. 10.—Receipts of hogs at the United Stock Yards in Chicago broke all previous records. Before noon more than 75,000 head had been unloaded and more were arriving. The high price of corn is said to be the cause for the marketing of the animals in such great numbers.

### SOOTHES AND HEALS.

Hyomei Gives Quick Relief in Catarrh Troubles.

Be wise in time and use Hyomei at the first warning of catarrhal troubles. Do not let the disease extend along the delicate mucous membrane, gradually going from the nose to the throat thence into the bronchial tubes, and then downward until the lungs are reached and you are in danger of consumption.

Hyomei will cure all curable forms and stages of catarrh. It is so uniformly successful in curing this common yet dangerous disease that T. F. Laurin takes all the risk of a trial treatment.

There is no other treatment for catarrh that is like Hyomei or just as good. None can take its place, none give such quick and sure relief and at so little cost. Its medications is breathed through a pocket inhaler that comes with every outfit, thus reaching the most remote cells of the air passages, killing the catarrhal germs and soothing and healing the irritated mucous membrane.

Begin the use of Hyomei today and you will soon find that the offensive breath, the droppings into the throat, the discharge from the nose and all other symptoms of catarrh are overcome and cured. The complete outfit costs but \$1.00 and T. F. Laurin stands ready to refund the money if it does not cure catarrh.

### Card of Thanks.

We desire, by this means, to convey our grateful thanks to each and all who, in any manner, contributed to our peace and comfort during the recent illness and death of our dear mother and grandmother.

MR. AND MRS. J. BENIOT,  
AND FAMILY.

### NEW TO-DAY

#### When You Travel

Be sure that your ticket reads via the O. R. & N. and connections. It costs no more than via other lines. Through tickets to and from all principal points in the United States, Canada and Europe. G. W. Roberts, Agent, O. R. & N. Dock, Astoria.

The Astoria office of "The Oregon Fire Relief Association," has been moved to 179 Ninth street, between Commercial and Duane. Get your rates before insuring. We can save you money. W. M. Whitney, Agent. 2-9-7t.

Second-hand furniture bought and sold by R. Davis, 59 Ninth street.

#### Into New Quarters.

W. N. Ford and W. J. Delashmutt, formerly of the Chinook bar, announce the sale of their fixtures in that well known business, and that they will move across the street and into their new and elegant quarters just completed, which will be thoroughly and beautifully equipped with new appointments from top to bottom. They have nothing more to do with the old stand, and the name of the new resort will be made known in the course of a few days.

#### The Palace Restaurant.

The ever-increasing popularity of the Palace Restaurant is evidence of the good management, and the service, at this popular dining room. For a long time the reputation of the house has been of the best and it does not wane as time progresses. The system used, that of furnishing the finest the market affords, and all can be obtained, in season, is a plan that will always win, coupled as it is with the best of cooking and prompt service. A common saying nowadays is "Get the Palace habit."

Living Music Box, real St. Andrewsberg roller Canaries for sale. Over Fishers store, corner Bond and Twelfth street. 2-8-39t.

#### New Arrivals

Spring styles of the famous Knox Hats at the store of Herman Wise.

#### New Mattress Factory.

Have your old furniture and mattresses made new. 59 Ninth street.

You Don't Need to Send to Portland C. H. Orkowitz, 137 Tenth street, can cover your umbrellas just as good as they can any place on the north-west coast.

#### New Grocery Store.

Try our own mixture of coffee—the J. P. B. Fresh fruit and vegetables. Badollet & Co., grocers. Phone Main 1281.

#### The Commercial.

One of the coziest and most popular resorts in the city is the Commercial. A new billiard room, a pleasant sitting room and handsome fixtures all go to make an agreeable meeting place for gentlemen, there to discuss the topics of the day, play a game of billiards and enjoy the fine refreshments served there. The best of goods are only handled, and this fact being so well known, a large business is done at the Commercial, on Commercial street, near Eleventh.

#### SEVEN FEET OF SNOW.

SPARTANBURG, S. C., Feb. 10.—Spartanburg is buried under seven inches of snow. It is the heaviest fall in many years. It occurred last night and today. The weather is now the coldest of the winter—22 degrees above zero.

No one is immune from kidney trouble, so just remember that Foley's Kidney Cure will stop the irregularities and cure any case of kidney and bladder trouble that is not beyond the reach of medicine. For sale by T. F. Laurin.
